

CRYSTAL CLEAN CAR WASH

WIPING

The forth will be wiped with a wet microfibre cloth followed by a dry one to avoid water marks.

WINDSHIELD

Glass cleaner will be sprayed on the windows glasses and will be wiped clean using a separate microfiber cloth

INSPECT

The car is inspected and images of the car are taken before starting the cleaning process

DUSTING

The car will be dusted using a duster to remove the dust particles from the body.

SPRAYING

Car wash shampoo mixed with water will be sprayed over the exterior of the car using a manual pressure pump.

WASH COMPLETE

Images are taken post the cleaning process and you will be sent an automatic update message with an option to view the wash images.
